   • DEA-41T1 Associate - PowerEdge Exam

Note: These details reflect certification requirements as of June 22, 2018.

The Proven Professional Program periodically updates certification requirements. *Please check the Proven Professional CertTracker website regularly for the latest information and for other options to meet the Associate level requirement.

Other Certification Recommendations
This certification will qualify towards the following Specialist level certifications in the Dell EMC Proven Professional Program

• Specialist - Implementation Engineer, PowerEdge
• Specialist – Systems Administrator, OpenManage Enterprise
DEA-41T1 Associate – PowerEdge Exam

Exam Description

Overview
This exam is a qualifying exam for the Associates - PowerEdge track.

This exam focuses on basic server technology knowledge and skills to install, configure, manage, and perform troubleshooting diagnostics on the Dell EMC PowerEdge Server platform.

Dell Technologies provides free practice tests to assess your knowledge in preparation for the exam. Practice tests allow you to become familiar with the topics and question types you will find on the proctored exam. Your results on a practice test offer one indication of how prepared you are for the proctored exam and can highlight topics on which you need to study and train further. A passing score on the practice test does not guarantee a passing score on the certification exam.

Products
Products likely to be referred to on this exam include but are not limited to:

- PowerEdge Rack Servers
- PowerEdge Tower Servers

Exam Topics
Topics likely to be covered on this exam include:

Server Installation and Upgrades (35%)
