Overview

This exam is a qualifying exam for the **Associate – Converged Systems and Hybrid Cloud (DECA)** track.

This exam is designed for people in both technical and non-technical roles and focuses on Dell EMC's Converged Systems, Cloud Computing and Cloud Native applications and how they can be used to accelerate Digital and IT transformation. Candidates that successfully pass the exam will be able to articulate Digital and IT transformation activities, and how Dell EMC plays a part in those activities

Dell Technologies provides free practice tests to assess your knowledge in preparation for the exam. Practice tests allow you to become familiar with the topics and question types you will find on the proctored exam. Your results on a practice test offer one indication of how prepared you are for the proctored exam and can highlight topics on which you need to study and train further. A passing score on the practice test does not guarantee a passing score on the certification exam.
