

Specialist - Implementation Engineer, NetWorker Version 8.0

Certification Description

[Proven Professional Website](#)

[Education Services Community](#)

Overview

This certification is used to validate an individual's knowledge of NetWorker and common backup and recovery concepts necessary to successfully implement Dell EMC NetWorker solutions. The learning path focuses on NetWorker Concepts, NetWorker Implementation, and NetWorker Administration. Topics include use cases, system architecture, components, monitoring, maintenance, capacity management, backup, restore, implementation, maintenance, and best practices.

Certification Requirements

To complete the requirements for this certification you must:

1. Achieve one of the following Associate level certifications*
 - Associate - Information Storage and Management Version 2.0
 - Associate - Information Storage and Management Version 3.0
 - Associate - Information Storage and Management Version 4.0
 - Associate - Data Protection and Management Version 1.0
2. Pass the following Specialist exam on or after October 23, 2020:
 - [DES-3128 Specialist – Implementation Engineer, NetWorker Exam](#)

Note: These details reflect certification requirements as of **October 23, 2020**.

The Proven Professional Program periodically updates certification requirements. *Please check the [Proven Professional CertTracker](#) website regularly for the latest information and for other options to meet the Associate level requirement.

Overview

This exam is a qualifying exam for the **Specialist - Implementation Engineer, NetWorker (DCS-IE)** track.

This exam focuses on ensuring individuals are knowledgeable in enterprise backup concepts and terminology and can successfully implement solutions designs with Dell EMC NetWorker backup solutions. This exam covers NetWorker Concepts, NetWorker Implementation, and NetWorker Administration. This exam also covers use cases, system architecture, components, monitoring, maintenance, capacity management, backup, restore, implementation, maintenance, and best practices.

Dell Technologies provides free practice tests to assess your knowledge in preparation for the exam. Practice tests allow you to become familiar with the topics and question types you will find on the proctored exam. Your results on a practice test offer one indication of how prepared you are for the proctored exam and can highlight topics on which you need to study and train further. A passing score on the practice test does not guarantee a passing score on the certification exam.

Products

Products likely to be referred to on this exam include but are not limited to:

- Dell EMC NetWorker software
- Dell EMC NetWorker modules (e.g. NMM, NMDA)

Exam Topics

Topics likely to be covered on this exam include:

Dell EMC NetWorker Overview (10%)

- Describe a NetWorker solution and its advantages
- Identify and describe the NetWorker software components and their roles, data protection functions, and terminology
- Explain the use of NetWorker control data and administrative interfaces

Dell EMC NetWorker Modules Overview (15%)

- Explain how NetWorker modules work with native applications to support backup and recovery
- Explain the backup and recovery process with NetWorker modules
- Explain the functionality of various NetWorker modules; for example, NMM and NMDA

Dell EMC NetWorker Installation and Configuration (40%)

- Describe the NetWorker architecture and components, including processes and backup data flow
- Install and license NetWorker, NetWorker Management Console, and NWUI

- Configure NetWorker backups; including client, protection group, policy and directive resources, and client save set and backup command attributes
- Distinguish and choose between NetWorker backup options; including synthetic full backup, block-based backup, and snapshot management
- Configure and manage NetWorker backup devices; including device types, media pools, client direct backups, cloning, and staging

Dell EMC NetWorker Administration and Management (25%)

- Demonstrate knowledge and application of NetWorker security features; including NetWorker authentication (AuthC), NetWorker user groups, logs, and configuring firewalls
- Configure and manage the NetWorker server and NetWorker Management Console; for example: notifications, reports, parallelism, and multi-tenancy
- Identify and describe how to recover Windows hosts and configure NetWorker in cluster environments
- Perform NetWorker recoveries: for example: directed, browsable, and save set
- Demonstrate how NetWorker databases are managed, backed up, and restored; for example: media and resources databases and client file indexes

Dell EMC NetWorker Cloud Enablement (10%)

- Describe the NetWorker features and capabilities that support backup to and in the Cloud
- Configure NetWorker with CloudBoost, Cloud Tier, and NetWorker Virtual Edition
- Manage NetWorker with CloudBoost, Cloud Tier, and NetWorker Virtual Edition

The percentages after each topic above reflects the approximate distribution of the total question set across the exam.

Please choose one of the options below.

Option 1: Please complete the following courses

| Course Title | Course Number | Mode | Available |
|---|---------------|------------------|-----------|
| NetWorker Concepts | MR-1WP-NWFUN | On Demand Course | 4/3/20 |
| NetWorker Implementation | ES101DPS01760 | On Demand Course | 6/19/2020 |
| NetWorker Implementation | ES101DPS01761 | On Demand Lab | 5/18/20 |
| NetWorker Administration | ES102DPS01486 | On Demand Course | 7/21/20 |
| NetWorker Administration | ES102DPS01705 | On Demand Lab | 5/18/20 |
| NetWorker Administration – Cloud Enablement | MR-1WP-NWCLD | On Demand Course | 8/4/20 |
| NetWorker Administration – Cloud Enablement | ES101DPS01728 | On Demand Lab | 8/6/20 |

Option 2: Please complete the following courses

| Course Title | Course Number | Mode | Available |
|---|-------------------------------|--------------------------------------|-----------|
| NetWorker Implementation and Administration | MR-1CP-NWIM OR MR-1LP-NWIM | Classroom OR Virtual Classroom | 10/5/20 |
| NetWorker Administration – Cloud Enablement | MR-1WP-NWCLD | On Demand Course | 8/4/20 |
| NetWorker Administration – Cloud Enablement | ES101DPS01728 | On Demand Lab | 8/6/20 |
