Overview

This exam is a qualifying exam for the **Specialist – Systems Administrator, VPLEX (DCS-SA)** track.

This exam focuses on the configuration and management of storage managed by VPLEX systems. Specifically, the exam encompasses provisioning storage and working with Consistency Groups and Distributed Volumes and covers VPLEX architecture, management and monitoring and maintaining the operational aspects of VPLEX systems. It also covers protecting VPLEX Virtual Volumes with RecoverPoint and MetroPoint.

Dell Technologies provides free practice tests to assess your knowledge in preparation for the exam. Practice tests allow you to become familiar with the topics and question types you will find on the proctored exam. Your results on a practice test offer one indication of how prepared you are for the proctored exam and can highlight topics on which you need to study and train further. A passing score on the practice test does not guarantee a passing score on the certification exam.
