Note: Dell Technologies reserves the right to withhold and or cancel fulfillment of any shirt fulfillment where the candidate has failed to add a shirt size, supply a valid mailing address with phone number, or the fulfillment carrier does not offer deliver within the country/area noted by the candidate in the “Personal Information” section of CertTracker.

PROGRAM BADGING

Dell Technologies offers different types of digital badges to recognize your contribution and accomplishments in the Proven Professional certification program. It is the Earner's choice whether to accept, reject, and/or share the digital credential. Earners can choose whether or not they wish to take advantage of this opportunity. Refer to the Badge Earners Guide to learn how to accept, reject and/or share your badge. More information on the program can be found on the Certification Overview Page.
UPDATE YOUR DELL TECHNOLOGIES PROVEN PROFESSIONAL CERTIFICATION

Most Dell Technologies Proven Professional certifications do not expire. Those which have an expiration are clearly noted in the Candidate’s CertTracker account. Upcoming expiration notifications are sent at 6 and 3 months before the expiration date to the primary email address listed in CertTracker.

To ensure continued readiness when no expiration is noted in CertTracker updating your certification is not required, but highly recommended. If you achieved your certification more than 36 months ago, individuals are encouraged to challenge the exam again to make sure the value of the credential is maintained.

CREDENTIAL VERSIONING

Depending upon the advancement in technology in a given Credential, decisions will be made if the advancements require a new version of the Credential to be introduced. Typically, disruptive changes in the technology will require a new version of the specialty Credential to be created.
